# How To Comment on the Environmental Impact Statement

---

## Helpful or Substantive Comments

- Identify specific concerns with the analysis in the DEIS or identify new information that would change analysis and conclusions
- Identify information that should be clarified
- Identify a substantially different alternative that meets the purpose and need and has not been considered

**Information on how to submit comments is on the comment forms provided.**

*We value your input.*

**Provide comments on the proposed project and specific analysis in the Draft Environmental Impact Statement.**

*We want to hear from you.*

## Not Helpful or Non-Substantive Comments

- In favor or against the proposal without reasoning
- A vote
- Agree or disagree with previous approvals or decisions
- Doesn't pertain to the project or project area

**Please ask questions today about current operations and the proposed project.**

*We are here today to answer your questions about the project and impact analysis during the open house portion of the meeting.*

*If your comment doesn't identify specific concerns, it likely isn't substantive.*
